## Dead Sea Evaporation.

Scientific observation justifies the estimate that a daily average of 6,000,000 tons of water is received into the Dead Sea from the Jordan and other sources during the year. During the rainy season, says the Chicago Record-Herald, the amount is very much greater; during the dry season it is of course very much less, but this average will be maintained year after year. There is no outlet and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down the gorges between the mountains. This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual heavy clouds form and thunderstorms sometimes rage with great violence in the pocket between the cliffs even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining, and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead Sea are rarely seen with distinctness because of this haze.

## The Rattlesnake's Rattle.

The utility of the rattle to the rattlesnake is a problem still awaiting solution. It has been supposed to be useful as paralyzing its prey through terror excited by the sound thus induced. But this is a very doubtful explanation. It is akin to the notion formerly entertained that serpents had a power of fascinating other creatures. Others have thought that it seems to excite the curiosity of animals and so brings them within the rattlesnake's reach. It has also been supposed that it serves, as it may do, to enable snakes of different sexes to find each other and also to guard the animal from attack when it is helpless from its power of offense having been temporarily exhausted.

No sufficient evidence has, however, been collected to show that any of these ingenious speculations affords us a real clue to the true cause of such a curious and elaborate mechanism.—Quarterly Review.

## Definition of Felicity.

A Baptist minister tells the following story: "A friend of mine, who is quite a scholar, once accepted an invitation to preach at a country church in the south, and, as was his custom, he used very learned language. After the service the pastor of the church said that he felt sure the members of the congregation did not understand the sermon. 'Nonsense!' replied my friend. 'I am sure there was nothing in my sermon which they could not comprehend.' 'Well,' said the pastor, 'I will call one of them in and see if he understands the meaning of the word "felicity." So he called in a laboring man and said, "John, can you tell me what is the meaning of the word "felicity?" "Well, I don't know, sir," said John, "but I believe it is some part of the inside of a pig."

## The Zest of Hunting.

You can never know the zest of hunting or fishing until your dinner depends upon your success; you have never attained the sublime in cooking until you have spitted your fish or meat on a freshly peeled stick, rubbed the salt in with your fingers and broiled it over a woodland fire, you watching it jealously lest it get ablaze, and all the time that meat is browning you get hungrier and hungrier, and every time it sputters in the glow you catch wafts of fragrance until you feel that you have the capacity of a dozen starving men and wonder whether a single haunch of venison can supply your wants.

## Incredible.

An Irish harvester found himself in a small Scottish town. At the gasworks he saw a gasometer for the first time in his life and stopped a countryman who was passing to ask, "What's that big round thing there standing on end?"

The Scotchman scratched his head and replied, "A dinner ken." "Get out with you," said the Irishman; "you never saw a dinner can as big as that in your life."

## The Easy Pill.

DeWitt's Little Early Risers do not gripe nor weaken the system. They cure biliousness, jaundice, constipation and inactive livers, by arousing the secretions, moving the bowels gently, yet effectually, and giving such tone and strength to the glands of the stomach, liver and bowels that the cause of the trouble is removed effectually. These famous little pills exert a decided tonic effect upon the organ involved, and if their use is continued for a few days there will be no return of the trouble. E. S. Leadbeater & Son.

## A Graveyard Cough

is what a great many people suffer from although they do not realize it until it is too late. At first it is only a slight cough which gradually settles on the throat or lungs and if not checked and cured will develop pneumonia or consumption, and

## The End may be the Grave.

Dr. Bull's Cough Syrup is the best remedy for all kinds of throat and lung trouble. It has proved itself infallible for bronchitis and influenza, and will cure a cough or cold in a night. Dr. Bull's Cough Syrup has cured many people after they were given up by doctors to die, and it has saved more lives than any other similar remedy. Dr. Bull's Cough Syrup always cures.

Mr. Edward Dill, No. 835 Mechanic Street, Camden, N. J., writes: "I had a bad attack of the grippie, which left me with a very bad cough that settled on my lungs. I could not rest for the hard coughing and the doctor gave me medicine but it did me no good. I started to take Dr. Bull's Cough Syrup and it helped me at once. I continued taking it and it cured me of the worst cough I ever had."

## Substitution That Hurts You.

When a person is sick, trifling is dangerous. If the taking of proper medicine is delayed, serious and not infrequently fatal results follow. Herein lies the danger of permitting unscrupulous druggists to sell you substitutes for Dr. Bull's Cough Syrup. Substitutes are nothing more or less than mixtures that cannot be sold on their own merits for the reason that they are generally worthless. Ask for the old reliable Dr. Bull's Cough Syrup, and see that you get it. Be sure that our trade-mark, a Bull's Head is on the package. At all druggists, 25c., 50c. and \$1.00.
